Karachi, Pakistan | +92 311 2823179 | hamzamehmood054@gmail.com | [linkedin.com/in/hamza-mehmood](https://www.linkedin.com/in/hamza-mehmood)

PROFESSIONAL SUMMARY

Computer Science graduate (BUKC, June 2026) with hands-on experience building AI-powered applications, e-commerce systems, and automation workflows. Developed an AI voice calling agent using Twilio, OpenAI GPT-4, and Next.js as a Final Year Project. Skilled in Python, React Native, MongoDB, and n8n automation. Experienced in web development and Amazon retail arbitrage. Passionate about AI integration and startup-oriented problem solving.

TECHNICAL SKILLS

Languages & Frameworks: Python, JavaScript, React Native (Expo), Next.js 14, HTML/CSS

AI & Automation: OpenAI API (GPT-3.5/4), Twilio, n8n Workflows, Prompt Engineering

Databases & Tools: MongoDB, MySQL, Git/GitHub, WordPress, AutoCAD (2D/3D)

E-Commerce & Analytics: Amazon FBA, Keepa, Helium 10, Retail Arbitrage, Product Research

Data Science: Pandas, scikit-learn, Matplotlib, Machine Learning (Supervised)

PROFESSIONAL EXPERIENCE

E-Commerce Listing Intern — GE Solucions, Karachi

Oct 2025 – Nov 2025

- Managed and optimized 100+ product listings with bulk uploads, maintaining accuracy and consistency across the store.
- Supported inventory tracking and performance reporting, contributing to improved store efficiency metrics.

WordPress Developer — Fiverr (Project: MichaelThal.com)

Jan 2025 – May 2025

- Designed and developed a fully responsive, SEO-optimized personal website for a professional author using WordPress and Blocksy theme.
- Delivered project on time with client satisfaction; managed all communication and revisions independently.

Virtual Assistant (Amazon Retail Arbitrage) — Amazon UK

Oct 2024 – Jan 2025

- Launched and managed a small-scale retail arbitrage business on Amazon UK using Keepa and Helium 10 for product research.
- Sourced profitable products achieving ROI of up to 20%; managed listings, pricing, and inventory tracking.

ACADEMIC & PERSONAL PROJECTS

Almas — AI-Powered Voice Calling Agent (Final Year Project)

2025 – 2026

Stack: Twilio, OpenAI GPT-4, Next.js 14, MongoDB, Tailwind CSS, Node.js

- Built an end-to-end AI voice agent for healthcare facilities that answers inbound calls 24/7, transcribes speech, and classifies caller intent with no human intervention.
- Implemented a dual-layer emergency detection system (keyword matching + OpenAI intent classification) — successfully resolved 6/6 emergency test scenarios.
- Developed a real-time admin dashboard displaying call logs, transcriptions, and emergency flags.

SmartPOS — Point of Sale Web Application

2024

Stack: React, Node.js, MySQL

- Designed and built a smart POS system with real-time billing, inventory management, and product management modules.

Stock Price Prediction App

2024

Stack: Python, scikit-learn, Pandas, Matplotlib

- Developed a machine learning model to forecast stock price trends with real-time data visualization dashboards.
- Provided predictive insights for retail investors using supervised ML models integrated with live data feeds.

EDUCATION

BSc. Computer Science — Bahria University Karachi Campus (BUKC)

Oct 2022 – June 2026

CGPA: 3.0 | Relevant Courses: DSA, OOP, DBMS, Web Engineering, Machine Learning, Software Quality Assurance

Pre-Engineering (88%) — Cadet College Petaro (CCP)

May 2016 – June 2021

CERTIFICATIONS & TRAINING

- Certified Professional Safety Practitioner (CPSP) — Safety management, risk assessment, fire/electrical safety, emergency response
- Enablers E-Commerce Business Training Program — Product research, Amazon FBA, competitive pricing, market analysis
- AutoCAD 2D/3D Design — Complete architectural plan creation including floor plans, elevations, and 3D visualization
